

TRANSPORTATION ASSET MANAGEMENT COUNCIL
MONTHLY REPORT: JUNE 2003

- The Council held its regularly scheduled meeting on June 4th at the Kent County Road Commission offices in Grand Rapids. At the meeting the Council heard a “round table” discussion on pavement management from several local, state, and industry representatives.
- The month of June was one of considerable work for staff as we began organizing meetings and developing materials for use during the training sessions to be held in July and August.
- Staff made presentations at a special asset management “university” hosted by SEMCOG in Detroit. Presentations were also made to the Region 2 Planning Commission (Jackson) and Tri-County Regional Planning Commission (Lansing).
